Ex parte CARL T. WITTWER

Application No. 10/074,169

ORDER RETURNING UNDOCKETED APPEAL TO EXAMINER

This application was electronically received at the Board of Patent Appeals and Interferences on May 1, 2006. A review of the application has revealed that the application is not ready for docketing as an appeal. Accordingly, the application is herewith being returned to the examiner. The matter requiring attention prior to docketing is identified below.

The Appeal Brief is defective because the Summary of Claimed Subject Matter does not map the claimed invention to the independent claims as set forth in 37 CFR § 41.37(c)(1)(v) which states:

(v) *Summary of claimed subject matter.* A concise explanation of the subject matter defined in each of the independent claims involved in the appeal, which shall refer to the specification by page and line number, and to the drawing, if any, by reference characters. For each independent claim involved in the appeal and for each dependent claim argued separately under the provisions of paragraph (c)(1)(vii) of this section, every means plus function and step plus function as permitted by 35 U.S.C. 112, sixth paragraph, must be identified and the structure, material, or acts described in the specification as corresponding to each claimed function must be set forth with reference to the specification by page and line number, and to the drawing, if any, by reference characters.

Application No. 10/074,169

Accordingly, it is

ORDERED that the application is returned to the Examiner:

- 1) to hold the Appeal Brief of December 23, 2005 defective;
- 2) for applicant to file a substitute Appeal Brief in compliance with 37 CFR

§ 41.37;

3) for the examiner to consider the substitute Appeal Brief, and, vacate the Examiner's Answer mailed January 26, 2006, and issue a new Examiner's Answer in accordance with the new rules; and

- 4) for such further action as may be appropriate.
